CARBON STEEL LADDER RACK KIT

THE LADDER RACK KIT WILL INCLUDE:

1 BACK RACK

- / Protects the cab and rear window from shifting cargo and maximize visibility
- / Provides anchor points for securing loads and carrying long items like ladders
- / Optimizes space and enhances your truck with a modern, sleek design.

2 TRUCK RACK

- / Built with durable steel to securely carry heavy loads like ladders, pipes, and kayaks.
- / Designed to fit most truck models and support a variety of accessories.
- / Installs easily with a simple mounting system for quick setup and reliable performance.

3 TRUCK LADDER RACK

- / Securely carry heavy loads like ladders, pipes, surfboards/tents and kayaks.
- / Designed to accommodate most truck models and support a variety of accessories.
- / Installs easily with a simple mounting system for quick setup and reliable performance.

OPTIONAL ITEMS:

4 TOOL BOX ALUMINUM

- / Provides secure storage with durable, lightweight aluminum construction for rugged use.
- / Features gullwing doors for quick, convenient access to tools and gear.
- / Designed to complement truck aesthetics while maximizing functionality.

5 LEFT & RIGHT TOOL BOX ALUMINUM

- / Efficient storage without sacrificing truck bed space.
- / Protects tools with tamper-resistant locks, durable construction, and weather seals for ultimate security and reliability.
- / Features a low-profile, sleek design for unobtrusive integration and easy access to stored tools.
